Burhanuddin Lokhandwala

Mumbai, India | 7898894588 | burlokh23@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Backend-focused developer with hands-on experience in Node.js, Express.js, REST APIs, authentication, real-time applications, and analytics dashboards. Skilled in MongoDB, PostgreSQL, Redis, and BullMQ, with a strong foundation in data structures and algorithms.

TECHNICAL SKILLS

Languages: C++, JavaScript, Python

Backend & APIs: Node.js, Express.js, REST APIs, JWT, Socket.IO, Redis, BullMQ

Databases: MongoDB, Mongoose, PostgreSQL

Frontend: React.js, Tailwind CSS

Tools & Platforms: Git, GitHub, MongoDB Atlas, Vercel, Render

Integrations & CMS: Nodemailer, EmailJS, Sanity.io

Core Concepts: MVC Architecture, Authentication & Authorization, Data Structures & Algorithms

PROJECTS

Developer Productivity Hub *[Live Demo]*

Node.js, Express.js, React, MongoDB, PostgreSQL, Redis, BullMQ, JWT

- Built a developer analytics dashboard that aggregates GitHub and LeetCode data to track repository activity, coding progress by difficulty, and contest ratings.
- Designed a dual-database architecture: MongoDB/Mongoose for user and authentication data, and PostgreSQL for structured snapshots and historical analytics.
- Built JWT-secured REST APIs with a modular Express.js architecture; used Redis and BullMQ to schedule background data synchronization.
- Developed GitHub health and DSA-readiness scores, plus an LLM-powered analyst that highlights strengths, preparation gaps, and next steps.

WhatsApp-Style Real-Time Chat Application *[live demo]*

Node.js, Express.js, Socket.IO, MongoDB, React, Tailwind CSS, JWT, bcrypt

- Developed a full-stack real-time chat application using React and Node.js/Express, with Socket.IO for bidirectional messaging.
- Implemented JWT-based authentication and bcrypt password hashing to protect user accounts.
- Integrated MongoDB for persistent application data and built a responsive interface with React and Tailwind CSS.

GST Services Platform — accurategst.in *Client Project*

Nodemailer, EmailJS, Sanity.io

- Built and maintained a live client website for GST filing services.
- Implemented contact-form email delivery and integrated Sanity.io to manage blog content.

EDUCATION

Vidyalankar Institute of Technology, Mumbai

B.Tech in Information Technology | 3rd Year, 5th Semester

CGPA: 9.6/10

CERTIFICATIONS & ACHIEVEMENTS

- DevOps Residency (60 hrs, Credit Transfer Program) — L&T STA — 2026
- TechSprint Hackathon — 2nd Runner-Up (team project: HireDesk) — GDGoC VIT Mumbai — 2026
